

TOM HAHL

Colorado native Tom Hahl has been working wood in the four corner for 8 years; first as the master carpenter at the Strater Hotel, now for himself as Tom Hahl Woodworks. After “apprenticing” with Charlie Schumacher he has gone on to create many pieces of artisanal furniture that are enjoyed by private collectors and visitors to the Strater Hotel. By sculpting his furniture he is able to convey a sense of essential timelessness in his pieces that while understated, and ultimately useful, is still breathtaking. His furniture will stand the test of time. This is his seventh year contributing to the Furniture As Art auction for KDUR. He is also available for commissioned works.

See this piece in the live auction and on display at Marias Bookshop!
